

Financial guidance: 2022

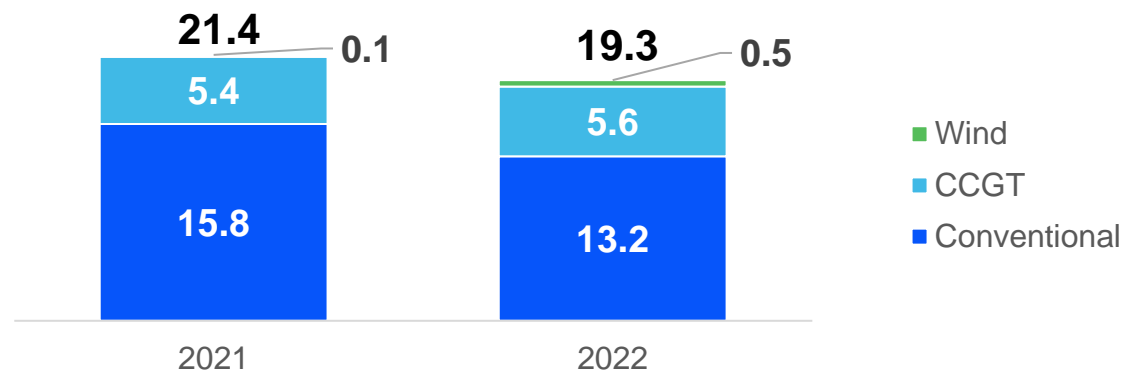

Business Plan 2022-2024 was approved by Enel Russia's Board of Directors on February 9th 2022. Guidance for 2022 contains certain statements that reflect the Company's management's views as of that date with respect to future events and financial and operational performance of the Company. The future economic environment may vary from the Company's expectations.

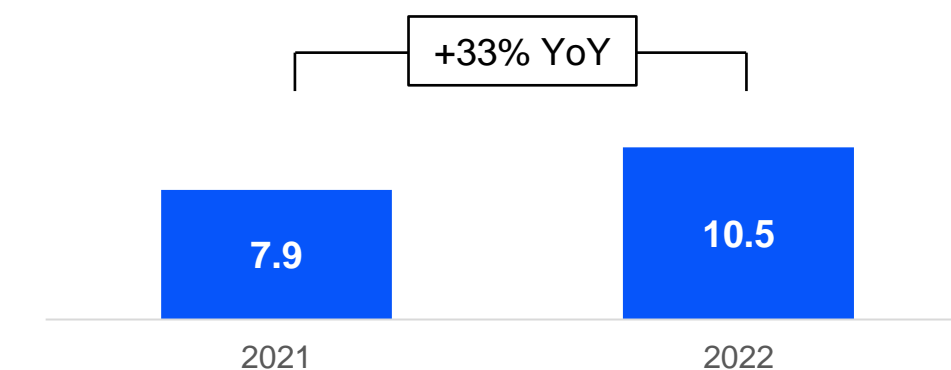

Business Plan: guidance for 2022

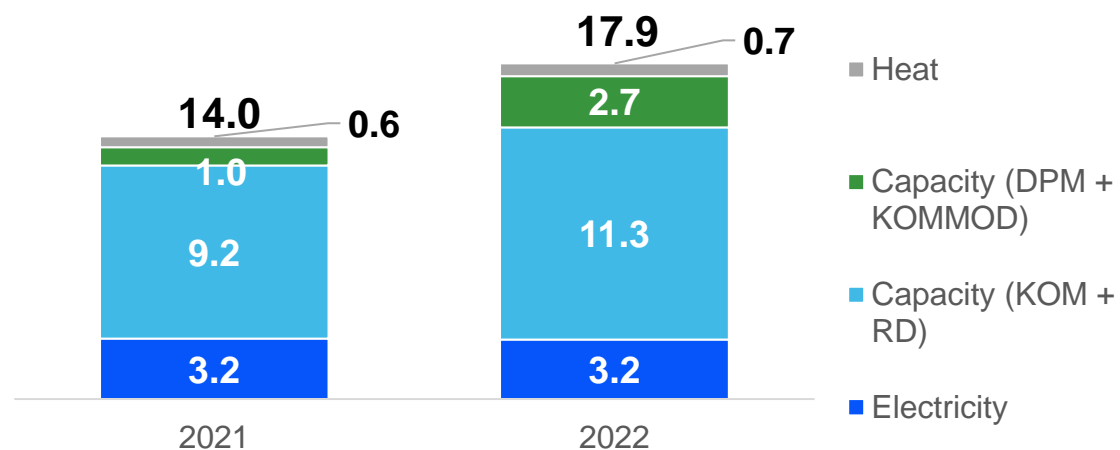

Net power output (TWh)

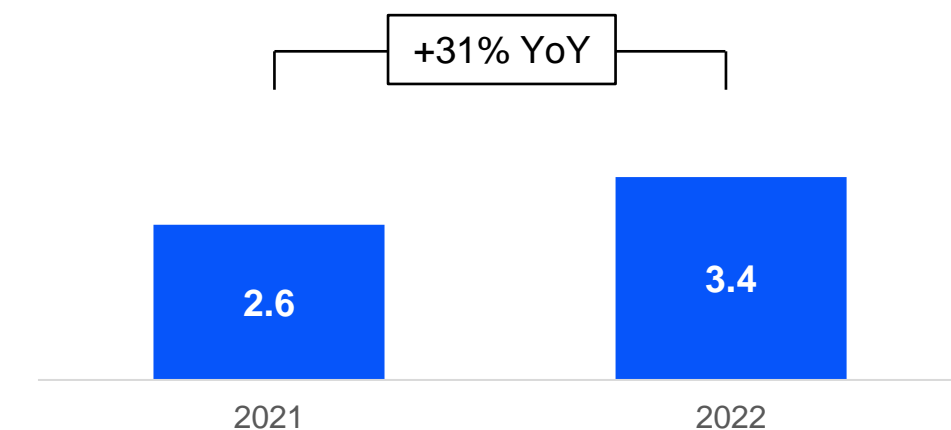

EBITDA (RUB bn)

Margin by segment (RUB bn)

Net income (RUB bn)

Given current focus on financial stability, dividend distribution in 2022 is not envisaged as according with the decision of Enel Russia's Board of Directors on February 9th 2022
