

ZERO SINGLE-USE PLASTIC VISION OF PJSC ENEL RUSSIA

Protection of environment and natural resources, acceptance of urgent measures to combat climate change, obligation to use natural resources and energy efficiently, reduce emissions and manage waste responsibly are strategic priorities of PJSC Enel Russia in the ongoing activities and development of new projects, plays a crucial role in strengthening the Company's leadership in the energy market and helps ensure sustainable economic development.

PJSC Enel Russia adopts **the Zero Single-Use Plastic Vision** and commits to renounce to all types of single-use plastics throughout its value chain and on all its sites and for all subsidiaries in the shortest possible time, considering the available options and practices.

PJSC Enel Russia strives to provide a deep understanding and increase of informed and responsible consumption within the framework of the provisions of **the Zero Single-Use Plastic Vision** among all personnel of the Company and its stakeholders.

The Zero Single-Use Plastic Vision is based on the understanding that purchase and recycle of single-use plastic generates externalities for the environment and society. The Vision is based on the belief that purchase of single-use plastic is entirely preventable.

The Zero Single-Use Plastic Vision is important to prevent generation of plastic waste and is of strategic importance to ensure a transition from linear to circular economy, from a throw-away to a zero-waste society, reducing waste at source, re-using and recycling.

The Zero Single-Use Plastic Vision applies to single-use plastics used by the company for the technological needs of power generation facilities. It equally applies to office daily life and to corporate events and should be embraced by all employees of the company, including when celebrating private events on company premises.

Enel Russia counts upon the commitment and responsible attitude of all personnel to ensure that **the Zero Single-Use Plastic Vision** becomes an integral part of our corporate culture.

In order to ensure continuous improvement of the environment, Enel Russia PJSC invites partners, suppliers and contractors to join The Zero Single-Use Plastic Vision and follow its main provisions as part of its production activities.
